

## Gwadar Swift Flood Relief Operations

**Islamabad, 29th February, 2024 (X):** In response to recent flooding in Gwadar, Jiwani, and Sar Bandar, the Army and Civil Administration have affirmed their unwavering cooperation with the local population. A comprehensive rescue operation was actively undertaken to ensure the safe relocation of villagers trapped in various regions.

Immediate measures included the establishment of medical camps in each affected area, complemented by the deployment of two emergency response units in Gwadar. Army engineers focused on dismantling blockages in Jiwani and restoring roads in Gwadar to facilitate smooth relief efforts.

To address the aftermath of the flooding, army pumps were strategically employed to drain water from flooded areas and houses. Displaced citizens received essential support in the form of cooked meals and dry rations. Dedicated debris clearance and mobile repair teams were dispatched to assist stranded citizens.

In consideration of the displaced population, tents and bedding were provided, earning appreciation from local residents. The water level is rapidly receding, with normalcy expected to return by tomorrow evening. Importantly, no casualties have been reported.
